6. Highlights:

Modern Institute of Engineering & Technology (MIET) was established in 2010 at Bandel, approximately an hour's drive from Kolkata city. Situated amidst verdant abundance and natural setting of semi urbanity, we constantly strive to impart a process of learning to our students the primary tenet of which - as we believe- is not a mere degree; it is the complete progression of a human mind towards a future that will enable her or him to strive towards sustained excellence and contribute to the nation and the global human race.
